Looking for **Barchart Legacy Opinions**? [Click Here.](#)

Barchart Opinions show traders what a variety of popular trading systems are suggesting in terms of going long or short the market. The Opinions takes up to 5 years' worth of historical data and runs these prices through thirteen different technical indicators. After each calculation, the program assigns a buy, sell or hold value for each study, depending on where the price lies in reference to the common interpretation of the study.

Barchart Opinions are not a recommendation to buy or sell a security. Your decision whether or not to make a purchase should be based on your own due diligence and not on any representation we make to you.
